

Ideation Phase

Define the Problem Statements

Date	20 June 2025
Team ID	LTVIP2025TMID52313
Project Name	Measuring the Pulse of Prosperity: An Index of Economic Freedom Analysis
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	I am a global policy researcher or economic advisor	I'm trying to explore how economic freedom influences national prosperity and investment appeal	But I lack integrated, visual insights to analyze the multidimensional data effectively	Because existing data is often fragmented, complex, and not easy to interpret in raw formats	Which makes me feel uncertain about prioritizing the right policy reforms
S-2	I am a data analyst or economist in a development agency	I'm trying to create dashboards and reports showing the economic status of different countries	But I can't easily compare indicators like GDP, HDI, and economic freedom scores in one view	Because there's no unified platform to visualize and analyze cross-country economic freedom data	Which makes me feel frustrated and restricted in presenting meaningful insights

2.2 Empathy Map
